1. **Centralized Management** – Control **all websites from one dashboard**.
2. **Shared Themes & Plugins** – Install updates once for **all sites**.
3. **Cost-Effective Hosting** – Reduce hosting expenses by running **multiple sites on the same server**.
4. **Role-Based Access** – Assign different permissions for **site admins, editors, and contributors**.
5. **Scalability** – Easily add new sites as your network grows.
