More like this

- Web apps built on WordPress (https://codetrappers.com/wordpress-for-web-apps/)
- Every site we have built (https://codetrappers.com/showcase/)

## The challenge

The client had a strong product but the website was not clearly explaining value, which led to low demo/trial intent from paid and organic visitors.

## Our approach

We rewired messaging hierarchy, tightened landing-page structure, improved performance, and built clearer CTAs for demo requests and signup actions. Business Impact: The client now gets better-qualified leads, stronger trial intent, and improved campaign efficiency from the same traffic channels.
